Travel

About Us

Founded in Barbados in 2017, Latitude Air Charters has been successfully serving our clients through the Caribbean region and beyond. As an aircraft charter broker, we are not limited to any destination, route or aircraft type and stand ready to propose a customized aircraft charter solution to fulfill your corporate travel needs.

Registered with the Barbados Ministry of Tourism & International Transport and under the purview of The Registrar of Travel Services, Latitude Air Charters is required to fulfill annual compliance reporting which includes the submission of audited financial statements.

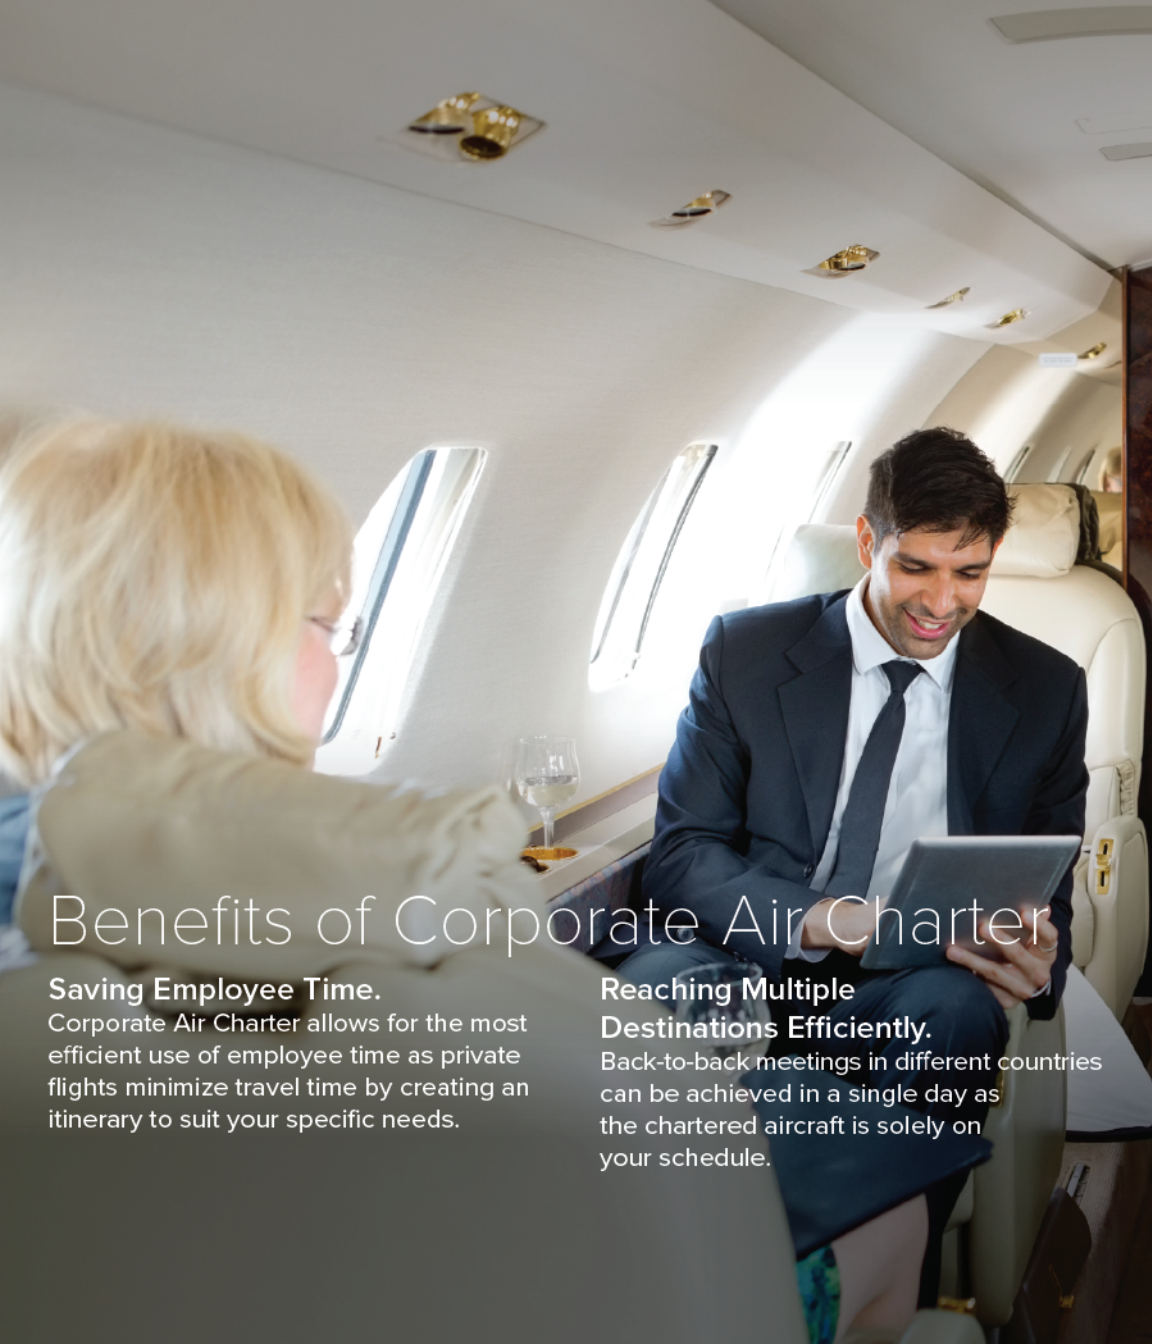

Membership of aviation organizations such as the National Business Aviation Association, provides Latitude Air Charters the opportunity to continuously refine our partnerships as we seek to deliver value to our clients without compromising service, safety or integrity.

Our team looks forward to advancing your business goals through the utilization of our Corporate Air Charter services.

We are also able to support your destination requirements such as ground transportation, accommodation, restaurant reservations and other last-minute items that may arise.

Benefits of Corporate Air Charter

Saving Employee Time.

Corporate Air Charter allows for the most efficient use of employee time as private flights minimize travel time by creating an itinerary to suit your specific needs.

Reaching Multiple Destinations Efficiently.

Back-to-back meetings in different countries can be achieved in a single day as the chartered aircraft is solely on your schedule.

Increasing Traveler Productivity And Safety Enroute.

The in-flight time with your group can be utilized for strategizing before meetings, discussions of proprietary information and debriefing afterwards all in a secure environment, free from interruptions and distractions.

Encouraging The Entrepreneurial Spirit.

Corporate Air Charter gives you the option of a quick response to unexpected or short notice business opportunities which can be explored without delay.

Why Book with Latitude Air Charters?

Extensive Market Knowledge

We are Caribbean based and have access to an extensive inventory of private charter aircraft to fulfill your corporate travel needs, whether you are island hopping within the region or flying into / out of the US, Canada & beyond.

Your Safety Is Our Priority

Our partner aircraft must not only meet the minimum criteria of holding a valid Air Operator Certificate regulated by their local Civil Aviation Authority, but also meet our own internal checks and operating policies.

Discreet VIP Service

Travel in comfort and privacy with requirements tailored to meet your onboard needs. Additional arrangements such as ground transportation, accommodation, restaurant reservations are other services that we can provide.

Private Client Account Manager

You will be assigned a 24/7 private client account manager who will assist with every aspect of your aircraft charter and manage your travel needs.

Our Fleet

Twin Engine Piston

Best suited for shorter duration flights due to slower cruising speeds and an unpressurized cabin. Perfect for small groups, short hop trips, quick in and out meetings.

Turboprop

Offering large passenger loads in an executive style cabin with a longer flying range than the Twin Engine Piston, this airplane category is better suited to your inter-regional flights.

Light Jet

Light jets provide increased cabin comfort with robust performance, allowing you to fly smaller groups further and faster for less compared to similarly priced Twin Engine Turboprops.

Midsized & Large Cabin Jets

Our fleet of midsized and large cabin aircraft are appointed with all the comforts to be expected of a luxury jet charter and are also able to offer far reaching destinations such as the USA, Canada and South America.
